1) Batumi city sightseeing Tour (Duration 1.30 hours):

Statue of Medea - More than thirty centuries ago an ancient Greek mythological hero Jason with fifty Argonauts sailed off on the boat “Argos” to fetch the Golden Fleece from Colchis in the Black Sea. An ancient Colchis Kingdom, ruled by powerful Ayetes, was situated on the present day’s Georgian territory. Here Jason not only found Golden Fleece, but fell in love with Ayetes daughter, beautiful Medea. The tremendous statue of Medea rises majestically above the Europe

Square in the central part of Batumi. Medea is holding Jason's Golden Fleece in her hand - a symbol of wealth and prosperity of the country.

Piazza square: Do you want to find yourself in a fairy tale? Then you should certainly visit the Piazza in the heart of the Old Batumi. Construction process of the Piazza was finished in 2010. The beautiful and impressive square, which has already become the city's visual symbol, is distinguished by its majestic building complex, mosaic and stained-glass windows and attracts more and more tourists every year. Here is located the main clock of the city: at 12 o'clock the bell rings and dancing couple dressed in

national Georgian costumes comes out of the clock. Besides, Piazza offers its guests all the necessary relevant facilities: cafés, restaurants and comfortable hotels.

Batumi port: “Porto-Franco” (free port) status was granted to the port because of its advantages. Cruise ships from different countries of the world stop by in order to enjoy the beautiful scenery of the Black Sea surrounded by mountains.

Ali and Nino - A unique moving statue of Ali and Nino is one of city's landmarks, symbolizing love and friendship between Islam and Christianity, East and West. The prototypes for the 9-meter high statue are the main characters of the famous novel by Qurban Said, telling the love story between a Muslim boy, Ali Khan Shirvanshir and a Christian girl, Nino Kipiani, descendent of the famous Nino Chavchavadze. The most remarkable feature of “Ali and Nino” is that metal

man and a woman are always in motion, meeting each other almost every 10 minutes. Beautiful color lightning effects and amazing seascape perfectly complete this stunning composition

2) Tour to Mountainous Ajara

You will remember this tour well because of beautiful panoramic views of mountain ranges, beautiful valleys, rivers, waterfalls and wild rocks, resembling the ruins of ancient castles. You will enjoy fresh air and mysterious and mythical mountains on this route, as well as get acquainted with the traditions and way of life of local residents. Guests will visit the 30-meter-high Makhuntseti waterfall and historical arched bridge (XII-XIIIcc)

3) Wine degustation

Wine tasting in Ajarian wine house – the white grape of “**Kedis Tsolikauri**” and the rose grape “**Chkhaveri**”. **Tsolikauri** is used to make European types of table white semi- sweet wines and **Chkhaveri** is distinguished by rose sparkle, an extremely delicate and harmonious bouquet and aroma
